NOTICE OF MOTION AND MOTION

TO PLAINTIFFS AND THEIR COUNSEL OF RECORD:

PLEASE TAKE NOTICE that on October 7, 2016, at 9:00 a.m. or as soon thereafter as the matter can be heard, in Courtroom 6, Fourth Floor of the United States District Court, Northern District of California, 280 South First Street, San Jose, California, 95113, the Honorable Ronald M. Whyte presiding, Defendant Seagate Technology LLC, will and hereby does move for an order pursuant to Fed. R. Civ. P. 12(b)(6) and Fed. R. Civ. P. 9(b) dismissing with prejudice all claims in the Second Consolidated Amended Complaint.

This motion is based on this Notice, the accompanying Memorandum of Points and Authorities, the papers and pleadings on file in this action, and such other papers and oral argument as may be submitted prior to or at the hearing on this motion.

Dated: August 5, 2016

SEAGATE TECHNOLOGY LLC

MEMORANDUM OF POINTS AND AUTHORITIES

I. INTRODUCTION AND SUMMARY OF ARGUMENT

Despite having filed a fifth complaint—comprised of 90 pages of allegations with 50 pages of exhibits—and notwithstanding their multiple opportunities to allege facts stating a claim, Plaintiffs still fail to do so. That is because, at bottom, Plaintiffs cannot allege a systemic defect or that Seagate Technology LLC (“Seagate”) failed to comply with the terms of its warranty.

The nine named plaintiffs allege Seagate violated California’s Unfair Competition Law, Business & Professions Code §17200 *et seq.* (“UCL”), and False Advertising Law, Business & Professions Code §17500 *et seq.* (“FAL”), and breached express and implied warranties relating to certain hard disk drives manufactured by Seagate. Plaintiffs also assert duplicative claims under the unfair competition and warranty laws of eight states. Finally, Plaintiffs assert a claim for “unjust enrichment.” Their claims all fail as a matter of law for two principal reasons. *First*, they allege no warranty breach. Plaintiffs received what Seagate’s limited warranty promised: replacements for hard drives that failed while under warranty. *Second*, Plaintiffs fail to identify any actual defect in the drives they allege are subject to a “model-wide defect.” Simply reciting “model-wide defect” does not suffice. In the absence of any allegations stating *what* alleged model-wide defect caused their drives to fail, plaintiffs have merely alleged that nine Seagate customers purchased hard drives that eventually failed. That is not a putative class action. It is not even nine individual actions. Consumer products sometimes fail. That is the point of warranties. And when a manufacturer complies with its warranty obligations, as Seagate did here, the failure of a product does not give rise to liability.

Permitting Plaintiffs to proceed on their “model-wide defect” theory—an attempt to convert their non-existent warranty claims into a tort—without even alleging *what* the defect is would turn warranty law on its head. Any manufacturer of any consumer product could be sued under California’s FAL, UCL and CLRA for false advertising and fraudulent practices any time a product failed, whether under warranty or not.

Plaintiffs rely on a blog post by a low-cost data storage company called Backblaze, along with a handful of anonymous or pseudonymous comments on the Internet, as anecdotal evidence

1 of a defect. But none provides any reasons for the alleged drive failures, let alone any basis to
 2 conclude such failures resulted from a common defect. At best, Plaintiffs' allegations show that
 3 some drives may fail while in warranty for a wide variety of reasons unrelated to any defect.

4 Plaintiffs must meet the stringent requirements of Federal Rule of Civil Procedure 9(b)
 5 because their claims sound in fraud. But even under the more relaxed standards of Rule 8, to
 6 survive a motion to dismiss, a plaintiff alleging a product defect must *identify* the defect. Alleging
 7 a symptom—or in Plaintiffs' case, an ultimate result—is insufficient as a matter of law. Seagate
 8 knows of no authority that says a manufacturer has a duty to disclose in the absence of an actual,
 9 identified product defect. Plaintiffs cannot hide behind their purported inability to allege facts
 10 stating such a claim. Plaintiffs could have investigated their Seagate drives to determine whether
 11 they show evidence of a defect. They needed no discovery from Seagate to do so. Their failure to
 12 investigate sufficiently to allege facts supporting a defect requires the dismissal of their claims.

13 Plaintiffs' claims fail for reasons in addition to the core failure to allege a defect or a
 14 warranty breach: (1) Plaintiffs fail to allege a false advertising claim under the UCL, FAL or
 15 CLRA because they do not allege any actionable misrepresentations; (2) even if Plaintiffs had
 16 alleged a defect, which they have not, Plaintiffs fail to allege Seagate had knowledge of such a
 17 defect or a duty to disclose it; (3) Plaintiffs fail to allege privity and thus their implied warranty
 18 claims fail; (4) most Plaintiffs' CLRA claims fail because they failed to file the required venue
 19 declarations; (5) many Plaintiffs' CLRA claims are time-barred; and (6) no claim for "unjust
 20 enrichment" lies where the parties are governed by an agreement—here, the Seagate limited
 21 warranty. In any event, the "unjust enrichment" claim is duplicative of the statutory claims.

22 The Court should dismiss Plaintiffs' Second Amended Complaint without leave to amend.

23 **II. BRIEF STATEMENT OF RELEVANT FACTUAL ALLEGATIONS**

24 Plaintiff Nelson, of South Dakota, purchased a Backup Plus drive with a two-year warranty
 25 from Best Buy's website on November 22, 2012. (SAC, ¶¶ 135-137.) The drive failed two years
 26 later and Nelson requested and received a replacement. (*Id.*, ¶ 146.) The replacement drive failed
 27 outside the warranty period. (*Id.*, ¶ 147.) Nelson does not allege he sought but did not receive a
 28 replacement for any drive that failed under warranty.

1 Plaintiff Hauff, of Massachusetts, purchased two Internal Barracuda drives with two-year
 2 warranties on August 19, 2012 from amazon.com. (SAC, ¶ 149.) One of those drives failed
 3 during the warranty period and Hauff requested and received a replacement. (*Id.*, ¶¶ 158-159.)
 4 The replacement failed outside the warranty period. (*Id.*, ¶ 159.) The other drive originally
 5 purchased also failed outside the warranty period. (*Id.*, ¶ 160.) Hauff does not allege he sought
 6 but did not receive a replacement for any drive that failed under warranty.

7 Plaintiff Schechner, of Florida, purchased a Backup Plus with a three-year warranty on
 8 November 28, 2012 from amazon.com. (SAC, ¶¶ 162-164.) The drive failed on April 13, 2014,
 9 and Schechner received a warranty replacement. (*Id.* ¶¶ 169, 171.) That drive also failed and
 10 Schechner again received a replacement. Schechner does not allege he sought but did not receive
 11 a replacement for any drive that failed under warranty.

12 Plaintiff Hagey, of Tennessee, purchased an Internal Barracuda drive with a three-year
 13 warranty at Best Buy on April 6, 2014. (SAC, ¶¶ 174, 176.) The drive failed on May 25, 2015
 14 and Hagey received a replacement. (*Id.*, ¶¶ 182-183.) The replacement failed and Hagey did not
 15 request a replacement drive. (*Id.*, ¶ 184.) Hagey does not allege he sought but did not receive a
 16 replacement for any drive that failed under warranty.

17 Plaintiff Crawford, of New York, purchased three Internal Barracuda drives with two-year
 18 warranties from TigerDirect. (SAC, ¶¶ 186, 188.) The three drives failed at different times and all
 19 were replaced. (*Id.*, ¶¶ 195-197.) Plaintiff Crawford also purchased an Internal Barracuda drive
 20 on eBay, which he does not allege is an authorized retailer. The drive failed while in warranty,
 21 and Crawford received a replacement, which subsequently failed. (*Id.*, ¶¶ 198-199.) Although
 22 Crawford alleges the replacement drive failed in warranty and that he did not receive another
 23 replacement, the warranty is inapplicable because it expressly states that “[o]nly consumers
 24 purchasing [drives] from an authorized Seagate retailer or reseller may obtain coverage under this
 25 limited warranty.” (SAC, Ex. F.) *See infra*, p. 21, n.7.

26 Plaintiff Manak, of Texas, purchased two Internal Barracuda drives with two-year
 27 warranties from newegg.com on May 16, 2013. (SAC, ¶¶ 211-213.) One of Manak’s two drives
 28 failed on March 15, 2014 and Manak requested and received a replacement. (*Id.*, ¶ 220.) The

1 replacement failed outside warranty. (*Id.*, ¶ 221.) Manak does not allege he sought but did not
 2 receive a replacement for any drive that failed under warranty.

3 Plaintiff Enders purchased 16 Internal Barracuda drives with two-year warranties “between
 4 September 2012 and May 2014” from amazon.com. (SAC, ¶ 223.) Although Enders alleges that
 5 “at least” five of the 16 drives “suffered catastrophic failures,” and that “at least one” of the drives
 6 “failed by reporting uncorrectable read errors,” he does not allege he requested any replacement
 7 drives. (*Id.*, ¶ 230.)

8 Plaintiff Dortch purchased eight Internal Barracuda drives with one-year warranties “in the
 9 spring of 2013” from tigerdirect.com and Evertech. (SAC, ¶¶ 232-233.) Two of the eight drives
 10 failed while under warranty and were replaced. (*Id.*, ¶ 239.) One of the replacement drives failed
 11 outside warranty. (*Id.*, ¶ 240.) Dortch does not allege he sought but did not receive a replacement
 12 for any drive that failed under warranty.

13 Plaintiff Smith purchased “four or five” Internal Barracuda drives “in November 2012,”
 14 and subsequently purchased “two or three” Internal Barracuda drives, from various retailers,
 15 “including Newegg and TigerDirect.” (SAC, ¶¶ 243-244.) “At least four” of the drives failed in
 16 warranty and Smith received replacements. (*Id.*, ¶¶ 249-250.) Smith does not allege he sought but
 17 failed to receive a replacement for any drive that failed under warranty.

18 **III. THE CLRA, UCL, FAL AND STATE STATUTORY CLAIMS ALL FAIL AS A** 19 **MATTER OF LAW**

20 **A. Rule 9(b) Applies**

21 Rule 9(b) requires all averments of fraud to be pled with particularity “irrespective of
 22 whether the substantive law at issue is state or federal,” and even where “fraud is not an essential
 23 element of a claim.” *Kearns v. Ford Motor Co.*, 567 F.3d 1120, 1125-26 (9th Cir. Cal. 2009)
 24 (*quoting Vess v. Ciba-Geigy Corp.*, 317 F.3d 1097, 1102, 1106 (9th Cir. 2003)). Where a
 25 complaint’s allegations are “grounded in fraud,” the plaintiff must meet the heightened pleading
 26 standards under Rule 9(b). *Id.* at 1125. A complaint is “grounded in fraud” where a plaintiff
 27 “allege[s] a unified course of fraudulent conduct.” *Id.*; *see also Brothers v. Hewlett-Packard Co.*,

2006 U.S. Dist. LEXIS 82027, * 23 (N.D. Cal. Oct. 31, 2006) (Whyte, J.) (“*Brothers I*”) (Rule 9 applies where complaint “based on an entire course of fraudulent conduct”).

Because all Plaintiffs’ claims sound in fraud, they must satisfy Rule 9’s heightened pleading standard. *See, e.g., Kearns*, 567 F.3d at 1127 (Rule 9 applies to UCL claims in federal court); *Vassigh v. Bai Brands LLC*, 2015 U.S. Dist. LEXIS 90675, ** 10-11 (N.D. Cal. July 13, 2015) (Rule 9 applies to claims under FAL and non-California statutes). Plaintiffs allege Seagate engaged in a “pattern or generalized course of conduct.” (SAC, ¶ 296.) For example, they allege Seagate “made material misrepresentations and omissions” (SAC, ¶ 280); “knowingly failed to disclose the Drives defects” (SAC, ¶ 230); engaged in “deceptive . . . and fraudulent conduct” and “concealed and did not disclose” information amounting to “fraudulent conduct” (SAC, ¶¶ 346-347); that it “kn[ew] [the drives] contain serious model-wide defects” but “fail[ed] to adequately disclose . . . the defects” (SAC, ¶ 292. All claims contain similar language alleging a course of conduct grounded in fraud. But that is not enough, because they must allege “the who, what, when, where, and how” of the alleged fraud. *Vess c. Ciba-Geigy Corp. USA*, 317 F.3d 1097, 1107. Plaintiffs fail to meet that standard.

B. Plaintiffs Fail to Allege a False Advertising Claim Under the UCL’s Fraud Prong, the FAL, the CLRA, or Any State Consumer Statutes

Under the FAL, the CLRA, and the fraud prong of the UCL, conduct is considered deceptive or misleading only if the conduct is “likely to [] deceive[]” a “reasonable consumer.” *Williams v. Gerber Prods. Co.*, 552 F.3d 934, 937 (9th Cir. 2008). Sellers may deceive a reasonable consumer under the FAL, CLRA and UCL either through (a) a failure to disclose information the seller had an obligation to disclose, or (b) affirmative representations. *See, e.g., In re Sony Gaming Networks & Customer Data Sec. Breach Litig.*, 996 F. Supp. 2d 942, 991 (S.D. Cal. 2014). Here, Plaintiffs fail to allege facts supporting either a fraudulent omission or an affirmative misrepresentation by Seagate.

1 **1. Plaintiffs’ Fraudulent Omission Claim Fails**

2 **a. Plaintiffs Fail to Allege Any Defect**

3 Plaintiffs allege their drives are subject to “model-wide defects” that cause the drives to
 4 fail at “spectacularly . . . high rates.” (SAC, ¶ 4.) But they allege no facts showing that any of
 5 their purported drive failures *resulted from a defect in the product*, as opposed to accident, abuse,
 6 neglect, heat or humidity beyond product specifications, improper installation, misuse, or any
 7 other of the many potential causes of drive failure. Even though Plaintiffs filed their first
 8 complaints six months ago and have amended to add seven new plaintiffs, more than 10 new
 9 causes of action, and 56 additional pages, they still allege nothing about the design or
 10 manufacturing of their drives they claim to be defective. These pleading failures are fatal. *See*,
 11 *e.g., Punian v. Gillette Co.*, 2016 U.S. Dist. LEXIS 34164, *35 (N.D. Cal. Mar. 15, 2016)
 12 (dismissing complaint under Rule 9 for failure to identify the particular defect); *Decoteau v. FCA*
 13 *US LLC*, 2015 U.S. Dist. LEXIS 152579, *2 (E.D. Cal. Nov. 9, 2015) (“Plaintiffs must allege
 14 specific facts to support their conclusion that their [products] were defective in order to adequately
 15 state a claim”); *Yagman v. General Motors Co.*, 2014 U.S. Dist. LEXIS 120045, **6-7 (C.D. Cal.
 16 Aug. 22, 2014) (dismissing under Rule 8 because “Plaintiff has not . . . pled sufficient facts to
 17 support his suggestion that a manufacturing defect is a plausible cause of [his] harm”).¹

18 *Yagman* is instructive. There, the named Plaintiff in a putative class action asserting
 19 warranty, fraud and other claims alleged that a vehicle with an unspecified defect “stopped
 20 running and it experienced a complete electrical shutdown.” 2014 U.S. Dist. LEXIS 120045 at *4.
 21 He asserted the purported “complete shutdown” happened twice—the second time after testing by
 22 the Defendant—and that a “jury could reasonably draw the inference that the vehicle was
 23 defective.” *Id.* The court dismissed under Rule 8, holding that “[t]he fact that the engine failed

24 _____
 25 ¹ The tagalong claims under consumer protection statutes in New York, Florida, Massachusetts,
 26 Illinois, Tennessee, South Carolina, Texas and South Dakota fail for the same reason. As to
 27 the Massachusetts and Texas statutes, Plaintiffs violated their stipulation with Seagate,
 28 memorialized in the Court’s order at Docket No. 54, by adding numerous unauthorized factual
 allegations, despite agreeing they would not “add further named plaintiffs or claims or
 additional facts supporting any existing claims other than” amendments “regarding notice
 provisions of” the CLRA and the Texas and Massachusetts statutes.

1 *renders it merely possible that a manufacturing defect was the cause.*” (Emphasis added.) *Id.* at
 2 6. Thus, under the “plausibility” standard of Rule 8—lower than the “particularity” standard of
 3 Rule 9, applicable here—the court concluded that any “reasonable inference” of a product defect
 4 did “not necessarily rise to the level of plausibility.” *Id.*; *see also In re Toyota Motor Corp.*, 754
 5 F. Supp. 2d 1208, 1222 (C.D. Cal. 2010) (even under the lower Rule 8 standard, “plaintiffs should
 6 ‘*identify/explain how* the [product] either deviated from [defendant’s] intended result/design or
 7 *how* the [product] deviated from other seemingly identical [product] models”) (emphasis in
 8 original) (*quoting Lucas v. City of Visalia*, 726 F. Supp. 2d 1149, 1155 (E.D. Cal. 2010)).²

9 Hard disk drives are complex electro-mechanical devices with many moving parts,
 10 including: (1) the “platter,” or the spinning disk upon which data are stored and retrieved and
 11 which rotates at thousands of RPM’s; (2) the “head,” which reads and writes data onto the platter;
 12 (3) the “head arm,” which positions the head along the platter; (4) the casing, which prevents the
 13 entry of particles that can disrupt the microscopically precise interaction between head and platter;
 14 (5) the actuator, an electro-magnetic device that powers the head arm across the platter; (6) a
 15 central spindle that rotates the platter; (7) a circuit board that controls the flow of data to and from
 16 the platter; and (8) a small spindle allowing the head arm to move across the platter. Malfunction
 17 of any of these components can lead to drive failure, and each of these components can fail for
 18 many reasons having nothing to do with design or manufacturing defects. Plaintiffs name no
 19 parts, no failures of any specific part, and fail even to offer a theory as to why their drives failed.
 20 Thus, Plaintiffs offer no factual support for their conclusory “model-wide defect” allegation.

21 Moreover, Plaintiffs fail to offer anything more than cursory allegations regarding the
 22 *manner* in which their drives failed. And their vague allegations describe widely different types
 23 of drive “failure.”³ As a result of this conclusory pleading, it is impossible to determine even the
 24

25 ² Indeed, Plaintiffs fail even to allege whether the defect was a manufacturing defect or a design
 26 defect. If the latter, their claims are barred because Seagate’s warranty covers defects in
 27 material or workmanship, and “express warranties covering defects in materials and
 workmanship exclude defects in design.” *Troup v. Toyota Motor Corp.*, 545 Fed. Appx. 668,
 668-669 (9th Cir. 2012).

28 ³ Nelson alleges his drive “failed” when a “large number of data sectors suddenly failed.” (SAC
 ¶ 144.) Hauff alleges his drive “started experiencing problems” when it “developed bad

1 **possible** reasons for the alleged drive failures, much less whether those reasons had any
 2 connection to a “model-wide defect.” Nor do Plaintiffs draw any causal link between any
 3 purported defect and the symptoms or injury pled. These pleading failures deprive Seagate of the
 4 ability to receive “fair notice and . . . defend itself effectively.” *See Starr v. Baca*, 652 F.3d 1202,
 5 1216 (9th Cir. 2011).

6 “Failures”—even “catastrophic failures”—are not defects. They are results. Because all
 7 products will experience some rate of premature failure (or failure from misuse), the cases finding
 8 a duty to disclose involve an actual identifiable defect in the product.⁴ Here, Plaintiffs have
 9 merely asserted—based on a third-party blog post, not their own testing, analysis, or even a
 10 statistically significant sample—that Seagate’s drive model number ST3000DM001 supposedly
 11 has a “staggering failure rate,” which “indicates” that “the Drives contain an inherent, model-wide
 12 defect.” (SAC ¶ 108.) But what *is* the defect? The SAC is silent. Permitting Plaintiffs to proceed
 13 on a theory that **any** failure of nine purchasers’ drives equates to liability and damages would

14 sectors,” and then “failed completely.” (SAC ¶ 159.) Schechner claims his drive “crashed and
 15 failed to boot back up ever again,” that “the power light would turn on but the Drive did not
 16 ‘spin up,’ and that the “computer could not find or recognize the Drive.” (SAC ¶ 169.) Hagey
 17 alleges only that his drives “crashed and catastrophically failed.” (SAC ¶ 182.) Crawford
 18 alleges that one drive “suffered a complete and catastrophic failure,” and that “the other two
 19 began to return read errors.” (SAC ¶ 196.) As to a replacement drive Crawford received, he
 20 alleges only that it “failed.” (SAC ¶¶ 198, 199, 201.) Manak alleges only that his drive
 21 “failed,” and that the replacement “suffered a complete and catastrophic failure.” (SAC ¶¶
 22 220, 221.) Enders alleges “at least five” of his drives “suffered catastrophic failures,” but
 23 specifies that “at least one of the original Drives failed by reporting uncorrectable read errors.”
 24 (SAC ¶ 230.) Dortch alleges that “four of [the] eight” drives he purchased “suffered
 25 catastrophic failures.” (SAC ¶ 238.) He alleges replacement drives “failed” or
 26 “catastrophically failed,” with no further information. (SAC ¶ 240.) Smith alleges “at least
 27 four of [his] original eight Drives failed,” with no further information. (SAC ¶ 249.)

28 ⁴ *In Elias v. Hewlett-Packard Co.*, 2014 WL 493034, at *1 (N.D. Cal. Feb. 5, 2014), for
 example, plaintiff alleged Hewlett-Packard had installed a 220-watt power supply unit in one
 of its computer models, when the component parts in that model needed at least 300 watts to
 operate properly. According to plaintiff, because of this identified design defect, the power
 supply unit was “incapable of providing adequate power.” *Id.* at *4. In *Herremans v. BMW of*
N. Am., LLC, 2014 WL 5017843, at *1 (C.D. Cal. Oct. 3, 2014), plaintiff likewise alleged the
 existence of an actual, identified design defect—the sealed ball bearing system in the
 automobile’s water pump was alleged to be defective because the stress placed on it exceeded
 engineering limitations. *See also Wilson v. Hewlett-Packard Co.*, 668 F.3d 1136, 1143 (9th
 Cir. 2012) (noting that the “complaint describes the design defect in some detail,” including
 “that the component that connects the power jack to the motherboard ‘was designed in a
 manner that is exceedingly fragile,’ as the connection is supported only by a few pins affixed
 with solder”).

upend California warranty law. Indeed, such a theory—that alleged premature failure = defect *per se*— would impose a strict liability standard in place of proof that the alleged failure had any connection to actions by Seagate. California law requires more. The possibility of device failure is why manufacturers provide warranties. Manufacturers advertise their warranties, and consumers place value on them, because both recognize that virtually no product can be assured not ever to fail prematurely. If there were no possibility of such failure, the warranty would be pointless.

Plaintiffs attempt to assert that, by replacing failed drives pursuant to warranty, Seagate somehow “admitted” a “model-wide defect.” (*See* SAC ¶ 118.). This argument fails on multiple levels. First, the warranty’s limitation to drives exhibiting “defects in materials or workmanship” obviously does not prohibit Seagate from replacing drives *without* such defects, or from deciding in its discretion to replace drives that fail for any reason. Second, even if it were true that *all* returned drives exhibited a “defect,” nothing in the SAC, the warranty, or anywhere else suggests Plaintiffs’ drives failed due to a defect in *manufacturing or design*—as opposed to, say, faulty installation. Third, even if it were the case that *all* drives replaced pursuant to the warranty were defective, nothing in the SAC provides any basis to conclude that the defect was uniform or “model-wide,” as Plaintiffs assert. Plaintiffs’ attempt to turn Seagate’s compliance with its warranty terms into a tort is a “heads I win, tails you lose” argument arising from the self-defeating fact that Plaintiffs assert breach of warranty claims *despite admitting in their complaint that Seagate complied with the warranty terms*. Their attempt to avoid that fatal problem by asserting unspecified “model-wide defects” fails.⁵

If the Drives actually were defective, Plaintiffs should have alleged facts showing as much. Plaintiffs could have conducted pre-filing investigation (as Rule 11 requires) to determine whether the Drives suffer from a model-wide defect and to identify the nature of any such defect. The law

⁵ Plaintiffs’ contention that Seagate “not only repairs or attempts to repair 100% of warranty returns, but 100% of those Drives are defective,” (SAC ¶ 119) is a blatant misreading of a website statement about Seagate’s “takeback program” for refurbishment or recycling of warranty returns. Information about Seagate’s “green practices” plainly has nothing to do with whether any of its drives are defective.

1 does not permit a plaintiff to file a lawsuit—or, in this case, multiple lawsuits and multiple
 2 amended pleadings—and impose on the courts and the defendant the enormous burden and
 3 expense of refuting meritless claims when the plaintiff has failed to do even the most basic
 4 groundwork to establish his claim. *Bly-Magee v. California*, 236 F.3d 1014, 1018 (9th Cir. 2001)
 5 (*quoting In re Stac Elec. Sec. Litig.*, 89 F.3d 1399, 1405 (9th Cir. 1996) (requirements of Rule 9(b)
 6 serve “to deter the filing of complaints as a pretext for the discovery of unknown wrongs . . . and
 7 to prohibit plaintiffs from unilaterally imposing upon the court, the parties and society enormous
 8 social and economic costs absent some factual basis”).

9 **b. Plaintiffs Fail to Allege Seagate Had Any Duty to Disclose**

10 A defendant is not liable for a fraudulent omission unless the omission is “contrary to a
 11 representation actually made by the defendant or an omission of a fact the defendant was obliged
 12 to disclose.” *Wilson v. Hewlett-Packard Co.*, 668 F.3d 1136, 1141 (9th Cir. 2012) (*quoting*
 13 *Daugherty v. Am. Honda Motor Co.*, 144 Cal. App. 4th 824 (2006)). In *Wilson*, the Ninth Circuit
 14 held that “a manufacturer’s duty to consumers is limited to its warranty obligations absent either
 15 an affirmative misrepresentation or a safety issue.” *Id.* Thus, in order to plead a UCL claim based
 16 on an omission, a plaintiff must plead with particularity “factual allegations showing any instance
 17 of physical injury or any safety concerns posed by the defect.” *Daugherty*, 144 Cal. App. 4th at
 18 836. Also, a plaintiff “must sufficiently allege that a defendant was aware of a defect at the time
 19 of sale to survive a motion to dismiss.” *Wilson*, 668 F.3d at 1145.

20 Plaintiffs fail to allege facts supporting any duty of Seagate to disclose. First, the drives
 21 are not alleged to present any “safety issues,” and thus no duty arises. *See, e.g. Willis v. Buffalo*
 22 *Pumps Inc.*, 34 F. Supp. 3d 1117, 1132 (S.D. Cal. 2014) (“In *Wilson*, the Ninth Circuit rejected a
 23 broad obligation to disclose all material facts, but accepted that a manufacturer would be ‘bound to
 24 disclose’ a defect that posed safety concerns or risk of physical injury.”). Second, although
 25 Plaintiffs allege knowledge based, *inter alia*, on comments posted on the Internet, as shown
 26 below, they allege no facts to support that Seagate knew of any underlying defects, because there
 27 were no underlying defects about which Seagate could have known.

c. **Plaintiffs Fail to Allege Seagate Knew of Any Defect**

“In order to give rise to a duty to disclose, a complaint must contain specific allegations demonstrating the manufacturer's knowledge of the alleged defect *at the time of sale*.” *Donohue v. Apple, Inc.*, 871 F. Supp. 2d 913, 927 (N.D. Cal. 2012) (emphasis original). Even assuming Seagate had a duty to disclose unspecified “defects,” Plaintiffs’ fraudulent omission claims fail because the SAC does not allege facts showing that Seagate knew of any defects *at the time of sale*. See, e.g., *Kowalsky v. Hewlett-Packard Co.*, 771 F. Supp. 2d 1156, 1160 (N.D. Cal. 2011) (“*Kowalsky v. HP*”) (fraudulent omission claims subject to dismissal unless Plaintiffs make “a plausible showing that the defendant knew of the alleged defect when it made the representations alleged to be deceptive”); *In re Sony Grand Wega KDF-E A10/A20 Series Rear Projection HDTV Television Litig.*, 758 F. Supp. 2d 1077 (S.D. Cal. 2010) (“*In re Sony HDTV*”) (“Plaintiffs have failed to offer sufficiently particularized allegations showing that Sony was aware of the defect when Plaintiffs purchased the televisions.”).

Plaintiffs quote pseudonymous or anonymous web comments made by purported Seagate customers whose drives allegedly failed. However, “[r]andom anecdotal examples of disgruntled customers posting their views on websites” is insufficient “to impute knowledge upon defendants.” *Oestreicher v. Alienware Corp.*, 544 F. Supp. 2d 964, 974 n.9 (N.D. Cal. 2008); see also *Baba v. Hewlett-Packard Co.*, 2010 U.S. Dist. LEXIS 59747 (N.D. Cal., June 16, 2010) **14-16 (allegations of complaints on Internet insufficient to support claim HP engaged in fraud regarding a known defect); *Berenblat v. Apple, Inc.*, 2010 WL 1460297, *9 (N.D. Cal. 2010) (“the complaints posted on Apple’s consumer website merely establish the fact that some customers were complaining. By themselves, they are insufficient to show that Apple had knowledge.”). Moreover, virtually all of the comments post-date the Plaintiffs’ purchases and thus are irrelevant as a matter of law. See *Wilson*, 668 F.3d 1136, 1145-48 (“plaintiffs must sufficiently allege that a defendant was aware of a defect *at the time of sale* to survive a motion to dismiss”) (emphasis

1 added); *In re Sony HDTV*, 758 F. Supp. 2d 1077, 1095 (S.D. Cal. 2010) (“Sony had no duty to
2 disclose facts of which it was unaware”).⁶

3 In any event, Plaintiffs allege no facts indicating they have any basis for concluding that
4 the postings are accurate or legitimate. And even accepting, *arguendo*, the truthfulness of the
5 unsubstantiated postings, they establish neither the existence of a defect nor Seagate’s knowledge
6 of same. Once the chronologically irrelevant postings are eliminated, there are at most five
7 comments alleging drive failure—four regarding the Barracuda drives, and one regarding the
8 Backup Plus drives. However, none sheds any light on the reasons for the posters’ alleged drive
9 failures, nor provides any basis to conclude that the Drives have a design or manufacturing defect.
10 Like the SAC, the Internet comments describe symptoms and types of failure, ranging from drives
11 that were “dead on arrival”—a condition that would most likely occur as a result of mishandling
12 during shipping or storage—to drives exhibiting a “weird whirring sound,” and drives that
13 “developed bad sectors.” Many postings make clear the allegedly “failed” drives were replaced
14 pursuant to warranty; no one claims Seagate did not honor its warranty obligations.

15 To the extent Plaintiffs attempt to rely on Backblaze’s assertions in a blog post as imputing
16 knowledge of some defect to Seagate, this attempt fails for two reasons. First, the Backblaze blog
17 post was published in April 2015—long after all of the Plaintiffs purchased their allegedly
18 defective drives. (Request for Judicial Notice (“RJN”) at ¶ 1 & Ex. A.) Most Plaintiffs purchased
19 their drives in 2012; no Plaintiff purchased a drive after 2014. Obviously, information released in
20 2015 could not have provided any basis for Seagate to know about an alleged defect prior to
21 purchases a year or more earlier. *See, e.g., Neu v. Terminix Intern., Inc.*, 2008 U.S. Dist. LEXIS
22 60505, * 10 (N.D. Cal. July 24, 2008) (no “knowledge” within UCL where studies cited by
23 plaintiff were published after defendant made allegedly misleading statements).

24 Second, the blog post fails to identify any defect that resulted in purported drive failure.
25 Indeed, Backblaze commenters repeatedly noted this failing, observing that Backblaze’s blog

26
27 ⁶ Of the five comments regarding Backup Plus drives, only one pre-dates the alleged purchases.
28 Six of the 10 comments quoted in the SAC regarding Barracuda drives post-date the purchases.

1 contained “not a bit of discussion (did I miss it?) as to HOW the drives failed,” and noting that the
 2 “post still didn’t explain HOW the drives failed.” (RJN, ¶ 1 & Ex. A at p. 12 of 21.)

3 Third, the Backblaze blog post is based on an admittedly unscientific and anecdotal
 4 assessment of drives that Backblaze admits it misused by (1) using consumer-grade drives for
 5 commercial applications, and (2) “shucking” external drives—i.e., using them without their
 6 protective casings. (RJN, ¶ 1 & Ex. A at p. 9 of 21.) Accordingly, Backblaze’s “analysis” is
 7 irrelevant to Plaintiffs’ claims because the drives were used outside the requirements of Seagate’s
 8 warranty. Finally, Plaintiffs allege Backblaze “concluded that the cause of the staggering failure
 9 rate was the Drives themselves.” (SAC ¶ 107.) The blog post concludes nothing of the sort. It
 10 merely speculates that “perhaps” Seagate drives “were impacted more than other models or other
 11 vendors” by flooding in Thailand in 2011. (RJN, Ex. A at p. 10 of 21.) The most Backblaze says
 12 is that *one* of several possibilities for the allegedly high failure rate of Seagate drives was “the
 13 drives themselves,” with no mention of any particular problem—much less a “model-wide defect.”

14 **2. Plaintiffs Allege No Actionable Misrepresentations**

15 Plaintiffs’ misrepresentation claims fail as well. The FAL “prohibits the use of any untrue
 16 or misleading statement in selling real or personal property or personal services.” *People v.*
 17 *Dollar-Rent-A-Car Sys., Inc.*, 211 Cal. App. 3d 119, 128 (1989). The FAL prohibits “not only
 18 advertising which is false, but also advertising which[,] although true, is either actually misleading
 19 or which has a capacity, likelihood or tendency to deceive or confuse the public. *Chapman v.*
 20 *Skype, Inc.*, 220 Cal. App. 4th 217, 226 (2011). To violate the FAL, advertising must actually
 21 mislead or be likely to mislead an ordinary consumer acting reasonably under the circumstances.
 22 *Id.* Further, to be actionable, a statement must allege facts, as opposed to opinion. *Oestreicher*,
 23 544 F. Supp. 2d 964, 973 (N.D. Cal. 2008) (“The court has not been able to glean any false
 24 statements of fact from plaintiff’s complaint”); *see also Coastal Abstract Serv., Inc. v. First Am.*
 25 *Title Ins. Co.*, 173 F.3d 725, 731 (9th Cir. 1999) (to be actionable, statement must be a “specific
 26 and measurable claim, capable of being proved false or being reasonably interpreted as a statement
 27 of objective fact”).

1 Plaintiffs allege material misrepresentations with respect to two categories of drives:
 2 Barracuda and Backup Plus, both allegedly containing Seagate's 3TB drive model number
 3 ST3000DM001.⁷ As to both, Plaintiffs' core claim is that Seagate allegedly misrepresented the
 4 drives by making statements about the functions and technology of those drives, as well as
 5 statements about their reliability and quality.

6 **a. Barracuda Drives**

7 As to the Barracuda drives, the SAC quotes, *inter alia*, the following alleged statements:

- 8 • "Seagate AcuTrac technology enables reliable read/write performance even in high
 9 touch operating environments."
- 10 • "Seagate AcuTrac™ technology enables new storage densities with accurate
 11 reading and writing to nano-sized tracks that are only 75 nanometers wide! That's
 12 about 500 times smaller than the period at the end of this sentence."
- 13 • "Proven quality and performance."
- 14 • "Barracuda has become the world's most popular family of hard drives with
 15 consistent quality and performance-enhancing innovations and features...."
- 16 • "The Barracuda® hard drive gives you one hard drive platform for every desktop
 17 storage application. One drive with trusted performance, reliability, simplicity, and
 18 capacity."
- 19 • "Count on Barracuda drives to deliver the storage innovations that drive your costs
 20 down and your performance up."
- 21 • The Barracuda is "produced using the most sophisticated manufacturing process in
 22 the industry, with a focus on environmental stewardship."

23 (SAC, ¶ 55.)

24 None of these statements is actionable. Nor is any false. Nor did any cause any damage to
 25 Plaintiffs. At most, the statements make subjective representations about general characteristics of
 26 the drives that are neither quantifiable nor provably true or false.

27 "The word 'performance' is non-actionable" *Annunziato v. eMachines, Inc.*, 402 F.
 28 Supp. 2d 1133, 1140 (C.D. Cal. 2005). "Describing a product as [']quality' or as 'having high
 performance criteria' are the types of subjective characterizations that . . . courts have repeatedly

⁷ Earlier iterations of Plaintiffs' complaint alleged misrepresentations regarding GoFlex drives. Plaintiffs have removed those allegations now that the sole Plaintiff who allegedly purchased a GoFlex drive, Mr. Ginsberg, has been dismissed. Thus, Plaintiffs fail to state a claim regarding the GoFlex drives.

1 held to be mere puffing.” *Id.* (quoting *Avery v. State Farm Mut. Auto. Ins. Co.*, 216 Ill. 2d 100
 2 (2005)). Similarly, “the word ‘reliability’ is non-actionable” *Annunziato*, 402 F. Supp. 2d at
 3 1140. “The word [‘]reliable’ is inherently vague and general—in common parlance akin to a
 4 statement that the machine is fine.” *Summit Tech., Inc. v. High-Line Medical Instruments, Co.*,
 5 933 F. Supp. 918, 931 (C.D. Cal. 1996). Moreover, “a claim that machines are ‘reliable’ is
 6 ‘incapable of objective verification and not expected to induce reasonable consumer reliance.’”
 7 *Id.*; see also *Sumer v. Carrier Corp.*, 2015 U.S. Dist. LEXIS 20731, *4 (N.D. Cal. Feb. 20, 2015)
 8 (statements about “reliability and quality of [air conditioner] evaporator coils are non-actionable . .
 9 . . .”); *Long v. Hewlett-Packard Co.*, 2007 U.S. Dist. LEXIS 79262, *21 (N.D. Cal. July 27, 2007)
 10 (statements that laptops are a “reliable mobile computing solution” are non-actionable); *aff’d*, 316
 11 Fed. Appx. 585 (9th Cir. 2009).

12 Plaintiffs allege that a “reasonable person” would understand the above statements to
 13 mean, *inter alia*, that the Barracuda drive “will last as long as comparable hard drives on the
 14 market, if not longer,” and that it “does not suffer from a latent, model-wide defect that causes it to
 15 fail at an extremely high rate.” (SAC, ¶ 66.) However, none of the statements says anything
 16 about “comparable drives on the market.” Furthermore, representations that allegedly defective
 17 products are “designed, manufactured and tested for years of dependable operations” are non-
 18 actionable statements of opinion and thus “as a matter of law could not deceive a reasonable
 19 customer.” *Tietsworth v. Sears, Roebuck & Co.*, 720 F. Supp. 2d 1123, 1137 (N.D. Cal. 2010).

20 **b. Backup Plus Drives**

21 As to the Backup Plus drives, the SAC quotes, *inter alia*, the following alleged statements:

- 22 • “Your digital life safe and sound.”
- 23 • “Backup Plus . . . is the simple, one-click way to protect and share your entire
 24 digital life.”
- 25 • “Up to 4TB capacity for a lifetime of memories.”⁸

26
 27
 28 ⁸ Plaintiffs fail to provide the document that allegedly states “4TB capacity;” the only drives
 at issue are 3TB.

- “[L]ets you do more with photos and movies, protect everything in your digital life.”
- “Protect . . . Photos, videos and more.”
- “The Backup Plus desktop drive lets you set up easy automatic backups for all your stuff, so you know that even if ‘life happens’ to your computer, your memories are always protected.
- “With Backup Plus, you can easily download [photos] . . . so even more of your life is safe and sound.”

(SAC ¶ 67.)

As shown above, “reliable” and “long useful life” are inherently subjective concepts that do not give rise to a legal claim. *See, e.g., Anunziato*, 402 F. Supp. 2d at 1140. Statements such as “your digital life safe and sound;” “protect photos;” and “your memories are always protected” do not address a “specific or absolute characteristic” of the drives and, thus, are non-actionable. *See Oestereicher*, 544 F. Supp. 2d at 973. They also are not “mis-statement[s] of fact.” *Id.* Nor, as also shown above, do any of the statements make representations about “comparable drives on the market,” or suggest premature failure is impossible.

Plaintiffs further assert, based on the Barracuda product data sheet, that Seagate “claimed that the annualized failure rate (‘AFR’) of the Drives is less than 1% and that the maximum non-recoverable read errors per bits read is 1 per 10E14.” (SAC, ¶ 72.) They cite the following statistical data (*See* SAC ¶ 54, Ex. B.)⁹

Contact Start/Sbp Cycles	-	-	-	-	-	50,000	50,000	50,000
Load/Unload Cycles	300,000	300,000	300,000	300,000	300,000	-	-	-
Nonrecoverable Read	1 per	1 per	1 per	1 per	1 per	1 per	1 per	1 per
Annualized Failure Rate (AFR)	<1%	<1%	<1%	<1%	<1%	<1%	<1%	<1%
Power-On Hours	2400	2400	2400	2400	2400	2400	2400	2400

⁹ These specifications, from Seagate’s Barracuda Data Sheet dated November 2011, relate only to Barracuda drives and thus have no relevance to Plaintiffs’ claims about Backup Plus drives.

1 First, these are statistical test results. By definition, they provide no guarantee of future
 2 performance for any individual drive. Second, Plaintiffs do not allege any of the product
 3 specifications, which are statistical measures based on test populations, were untrue. It goes
 4 without saying that true, non-misleading information cannot be the basis of a misrepresentation
 5 claim. *In re Sony HDTV*, 758 F. Supp. 2d at 1093 (FAL proscribes only a statement that is
 6 “untrue, misleading, and which is known, or which by the exercise of reasonable care should be
 7 known, to be untrue or misleading”) (citing Cal. Bus. & Prof. Code § 17500 *et seq.*). Third,
 8 Plaintiffs themselves allege AFR “does not include failures that occurred because of misuse, user-
 9 inflicted damage, unauthorized modifications, and the like.” (SAC, ¶ 76.) Yet nowhere do
 10 Plaintiffs allege that they used the drives consistent with manufacturer specifications, or that they
 11 did not otherwise misuse the drives.

12 Even if the SAC could be construed to allege that Seagate’s specification data are false or
 13 misleading, Plaintiffs’ reliance on highly technical explanations (*see* SAC ¶¶ 74-78) merely
 14 highlights why such data are not and could not be materially misleading to a “reasonable
 15 consumer”—no such consumer is alleged to have known of or relied upon this information before
 16 purchasing. *See Ross v. Sioux Honey Assn.*, 2013 U.S. Dist. LEXIS 6181, *48 (N.D. Cal. Jan. 14,
 17 2013) (“reasonable consumer” standard “adopts the perspective of the ‘ordinary consumer acting
 18 reasonably under the circumstances’ and thus ‘questions of judgment calling for the perspective of
 19 a reasonable consumer are ‘determined in the light of the effect [such a question] would most
 20 probably produce on ordinary minds’”) (citations omitted). Moreover, to the extent such highly
 21 technical information would be within the purview of a “reasonable consumer,” which is doubtful,
 22 the SAC does not allege that a “reasonable consumer” would find the Barracuda specifications to
 23 be misleading.

24 c. Statements Regarding RAID and NAS

25 Finally, Plaintiffs allege that various Seagate materials state the Drives are “designed for,”
 26 and a “best fit” for RAID and NAS. (*See, e.g.,* SAC, ¶¶ 58-63.) Plaintiffs claim these alleged
 27 statements are actionable because “the Drives are not designed for *certain types of home RAID*
 28 *configurations.*” (*Id.*, ¶ 6, emphasis added) They further claim the alleged representations “would

1 cause a reasonable person to believe that the Drive is suitable and designed for *all* RAID and NAS
2 configurations, including RAID 5.” (SAC, ¶ 64, emphasis added)

3 First, none of the statements Plaintiffs allege Seagate made about NAS or RAID asserts
4 that the drives are suitable for *all* NAS and RAID configurations. Plaintiffs Hauff, Crawford,
5 Enders and Dortch allege they *used* the drives for NAS or RAID configurations and that
6 individual drives failed. But they allege no facts supporting the allegation that the drives failed
7 *because of* the NAS or RAID configurations, that there was anything in particular about the Drives
8 that made them unsuitable for NAS or RAID uses, or that the alleged unsuitability for NAS or
9 RAID uses led to any harm to any of the Plaintiffs. Thus, even assuming any of the alleged
10 statements regarding NAS or RAID was false or misleading—which they were not—Plaintiffs
11 have not alleged they suffered any harm as a result. They merely allege their drives failed,
12 irrespective of any RAID or NAS use.¹⁰

13 **C. Plaintiffs Fail to Allege Claims Under the UCL “Unfair” or “Unlawful”**
14 **Prongs**

15 With one exception, Plaintiffs’ allegations under the “unfair” prong of the UCL are
16 identical to those under the “fraudulent” prong and fail for the same reasons. The exception is the
17 assertion that Seagate violated the “unfair” prong of the UCL by “replacing failed Drives with
18 ‘refurbished’ Drives” and by “failing to provide refunds or a different model of hard drive to
19 warranty claimants.” (SAC, ¶ 292.)

20 But Seagate’s warranty specifically provides that Seagate “may replace your product with
21 a product that was previously used [and] repaired.” (SAC, Ex. F.) Further, the warranty limits the
22 remedies available to replacement, not “refunds or a different model of hard drive.” Thus, based
23 on the SAC’s allegations, Seagate complied with the warranty. California law permits the
24 limitation of remedies in consumer contracts; compliance with such limited remedies, therefore,
25 cannot be “unfair” within the UCL. *See, e.g., Rice v. Sunbeam Prods., Inc.*, 2013 U.S. Dist.
26 LEXIS 7467, *34 (C.D. Cal. Jan. 7 2013) (limitation of remedy to repair or replacement “is

27 ¹⁰ Only four Plaintiffs allege they used their drives for RAID or NAS. A fifth, Smith, merely
28 asserts he “intended” to do so, but does not claim he actually did. (SAC ¶ 247.)

allowable under California law”). To the extent Plaintiffs’ claims under the UCL’s “unlawful” prong rely on the alleged warranty breach, they fail for two reasons. First, breach of an express warranty—a contract—is not “unlawful” for purposes of the UCL. *See Boland, Inc. v. Rolf C. Hagen Corp.*, 685 F. Supp. 2d 1094, 1110 (E.D. Cal. 2010) (“[a] breach of contract ... is not in itself an unlawful act for purposes of the UCL”). Second, as shown below, Seagate did not breach its warranties.

IV. THE CLAIMS FOR BREACH OF EXPRESS WARRANTY FAIL

The Seagate limited warranty states that if a drive fails, “Seagate will replace your product without charge with a functionally equivalent replacement product.” (SAC, Ex. F.) It further provides that replacement is the sole remedy available, and that this sole remedy is only available during the warranty period. (*See* SAC, Ex. F, “How Long Does Coverage Last” and “What Does This Limited Warranty Not Cover?”) Thus, Seagate promised to replace failed drives during the warranty period. (*See* SAC ¶ 126 [alleging that Seagate’s limited warranty “provides for the replacement of defective Drives].”)

Plaintiffs allege no breach of this agreement. Indeed, Plaintiffs acknowledge they all either received replacements for allegedly failed drives during the warranty period, or did not request a replacement after an in-warranty drive failed. (*See* SAC, ¶¶ 135-152.)¹¹ Instead, they allege that Seagate “did not . . . deliver conforming, non-defective Drives,” and that Seagate “replaced defective Drives with defective Drives.” (SAC ¶¶ 336, 339, 341.) In *Long v. Hewlett-Packard Co.*, 2007 U.S. Dist. LEXIS 79262 at *11-12, this Court (Ware, J.) rejected a breach of warranty claim where plaintiff alleged defendant “substituted one defective [product] for another” because defendant complied with warranty terms. Seagate promised to replace any failed drives during the warranty period and, as Plaintiffs allege in the SAC, it did exactly what it promised. Plaintiffs’

¹¹ The sole exception is Plaintiff Crawford. However, Crawford failed to allege a contractual precondition to recovery—namely, that he purchased his drive from “an authorized retailer.” (SAC ¶¶ 186, 198, 199, 201; SAC Ex. F.) Thus, his claim fails as a matter of law for a reason different from the other plaintiffs. *See Taliaferro v. Samsung Telecoms. Am., LLC*, 2012 U.S. Dist. LEXIS 6221, *7 (N.D. Tex., Jan. 19, 2012) (applying California law and dismissing breach of warranty claim where plaintiff failed to “return product to an authorized phone service facility,” as required).

1 breach of warranty claims therefore fail as a matter of law. *See Brothers v. Hewlett-Packard Co.*,
 2 2007 U.S. Dist. LEXIS 13155, *13 (N.D. Cal. Feb. 12, 2007) (“*Brothers II*”) (failure to state
 3 breach of warranty claim where plaintiffs alleged defendant computer manufacturer “replac[ed] a
 4 defective part with another defective part,” and defendant replaced malfunctioning part during the
 5 warranty period, because that is “exactly what the Limited Warranty provides”).

6 “A manufacturer’s liability for breach of an express warranty derives from, and is
 7 measured by, the terms of that warranty.” *Cipollone v. Liggett Group, Inc.*, 505 U.S. 504, 525
 8 (1992). Thus, ““a plaintiff cannot maintain a breach of warranty claim...for a product that is
 9 repaired within the warranty period and fails again months after the warranty has expired.””
 10 *Frenzel v. Alphicom*, 76 F. Supp. 3d 999, 1019 (N.D. Cal. 2014) (*quoting Long*, 2007 U.S. Dist.
 11 LEXIS 7962, *10); *see also, e.g., Brothers I*, 2006 U.S. Dist. LEXIS 82027, *25 (“To the extent
 12 plaintiff contends that [defendant] failed to repair the defect while his [computer] was under
 13 warranty, it is undisputed that [defendant] replaced the motherboard at the time, which corrected
 14 the asserted . . . problems. To the extent plaintiff alleges that [defendant] breached the warranty by
 15 failing to repair the computer when it again displayed problems, it is undisputed that the warranty
 16 had already expired”).

17 Here, Plaintiffs allege the Drives failed within the warranty period, and that those failed
 18 drives were replaced.¹² Although some (but not all) Plaintiffs appear to allege drive failures
 19 *outside* the warranty period, such alleged failures cannot support a breach of warranty claim.
 20
 21
 22

23 ¹² Plaintiffs’ assertion that the “warranties failed of their essential purpose” adds nothing. (SAC
 24 ¶ 10.) A limited remedy fails of its essential purpose only when ““a party is deprived of its
 25 contractual remedy.”” *Nat’l Rural Telcoms. Coop. v. DIRECTV, Inc.*, 319 F. Supp. 2d 1040,
 26 1055 (C.D. Cal. 2003) (*quoting O’Neill v. United States*, 50 F.3d 677, 687 (9th Cir. 1995)).
 27 Under Plaintiffs’ own allegations, they received replacement drives when requested during the
 28 warranty period, *i.e.*, they received “exactly what the Limited Warranty provides.” *Brothers II*,
 2007 U.S. Dist. LEXIS 13155, *14. Accordingly, the limited warranty’s purpose was
 fulfilled. *See Sumer*, 2015 U.S. Dist. LEXIS 20731, **2-3 (no “failure of essential purpose”
 where defendant replaced defective part during warranty period and part failed again outside
 period).

1 Seagate met its warranty obligations, and Plaintiffs’ breach of express warranty claim fails as a
 2 matter of law.¹³

3 **V. THE CLAIMS FOR BREACH OF IMPLIED WARRANTY FAIL**

4 Plaintiffs alleging claims for breach of implied warranty must allege privity. *See, e.g.,*
 5 *Clemens v. DaimlerChrysler Corp.*, 534 F.3d 1017, 1023 (9th Cir. 2008); *Kent v. Hewlett Packard*,
 6 2010 U.S. Dist. LEXIS 76818, *11 (N.D. Cal. July 6, 2010) (one of four named plaintiffs in
 7 putative class action who did not purchase allegedly defective product directly from HP “cannot
 8 state a claim for breach of the implied warranty of merchantability”). Accordingly, because none
 9 of Plaintiffs allege they purchased their drives directly from Seagate, all Plaintiffs’ implied
 10 warranty claims fail.

11 The SAC asserts that “privity is not required . . . when plaintiffs rely on a manufacturer’s
 12 written representations on product labels or advertising materials in deciding to purchase a
 13 defective product.” (SAC, ¶ 343.) That is not the law. Some courts have held there is a “possible
 14 exception” for the privity requirement for breach of *express* warranty claims where the Plaintiff
 15 “relie[s] on representations made by the manufacturer in labels or advertising material.” *Burr v.*
 16 *Sherwin Williams Co.*, 42 Cal. 2d 682, 696 (1954). However, Seagate could find no case applying
 17 this exception to the privity requirement for implied warranty claims. The SAC further asserts
 18 that “[p]rivacy is also not required when the plaintiffs are the intended beneficiaries of implied
 19 warranties between a retailer and a manufacturer.” (SAC, ¶ 363.) To the contrary, “[n]o reported
 20 California decision has held that the purchaser of a consumer product may dodge the privity rule
 21 by asserting that he or she is a third-party beneficiary of the distribution agreements linking the
 22
 23

24 ¹³ The same result obtains under the breach-of-warranty laws of New York, Illinois, Florida,
 25 Massachusetts, Tennessee, South Carolina, Texas and South Dakota because compliance with
 26 a warranty’s terms cannot constitute a breach. To the extent Plaintiffs attempt to assert claims
 27 under California’s Song-Beverly Act, Cal. Civ. Code section 1791.2 *et seq.*, such claims fail as
 28 to all Plaintiffs except Enders, the only Plaintiff to allege he purchased a drive in California.
 Cal. Civ. Code § 1792; *Annunziato*, 402 F. Supp. 2d at 1142; *see also Kowalsky v. Hewlett-*
Packard Co., 771 F. Supp. 2d 1138, 1155 (N.D. Cal. 2010) (rejecting argument that online
 sales may be treated as occurring in California because order processed and shipped from
 California).

1 manufacturer to the retailer who ultimately made the sale.” *Xavier v. Phillip Morris USA*, 787 F.
 2 Supp. 2d. 1075, 1083 (N.D. Cal. 2011).¹⁴

3 **VI. THE CLRA CLAIMS FAIL INDEPENDENTLY**

4 **A. All But Two Plaintiffs Failed to File the Required Venue Declarations**

5 In any action under the CLRA, “concurrently with the filing of the complaint, the plaintiff
 6 shall file an affidavit stating facts showing that the action has been commenced in a county
 7 described in this section as a proper place for the trial of the action.” Cal. Civ. Code § 1780(d). If
 8 “a plaintiff fails to file the affidavit required by this section, the court shall, upon its own motion
 9 or upon motion of any party, dismiss the action without prejudice.” *Id.* Each named plaintiff must
 10 file a declaration. *See In re Sony HDTV*, 758 F. Supp. 2d. at 1094 (dismissing all CLRA claims
 11 except that asserted by lone plaintiff of 47 who submitted declaration). Here, Nelson filed a venue
 12 declaration with his amended complaint (Dkt. 37), as did Enders (Dkt. 38). No plaintiffs filed
 13 such venue declarations with the SAC. Accordingly, the CLRA claims of Hauff, Schechner,
 14 Hagey, Crawford, Manak, and Dortch and Smith should be dismissed.

15 **B. The CLRA Claims of Plaintiffs Nelson, Hauff, Schechner, Crawford, Dortch 16 and Smith Are Time-Barred**

17 A claim under the CLRA must be brought within three years. Cal. Civ. Code § 1783. The
 18 statutory period commences on the “date of the commission” of the act alleged to violate the
 19 CLRA. Here, Plaintiffs allege Seagate violated the CLRA by “fail[ing] to disclose” the drives’
 20 alleged defects. (SAC, ¶ 324.) The statutory limitations period therefore commenced on the date
 21 each Plaintiff purchased his Drives, at the latest. The original complaints in this action were filed
 22 in February, 2016. Accordingly, any Plaintiff who purchased his drive before February, 2013 is
 23 time-barred. Plaintiffs Nelson, Hauff, Schechner, Crawford, Dortch and Smith all allege they
 24 purchased their drives prior to February, 2013. Their CLRA claims are thus time-barred.

27 ¹⁴ Any Song-Beverly implied warranty claims except Enders’ also fail for the reasons stated
 28 *supra* at n.13.

VII. THE CLAIMS FOR “UNJUST ENRICHMENT” FAIL

A cause of action for unjust enrichment “does not lie when an enforceable, binding agreement exists defining the rights of the parties.” *Paracor Finance, Inc. v. General Electric Capital Corp.*, 96 F.3d 1151, 1167 (9th Cir. 1996). Here, Plaintiffs allege an agreement with Seagate—the limited warranty. Moreover, Plaintiffs’ unjust enrichment claims are duplicative of the claims under the UCL and FAL as well as the warranty claims, and should be dismissed on that basis as well. See *In re Apple & AT&T iPad Unlimited Data Plan Litig.*, 802 F. Supp. 2d 1070, 1077 (N.D. Cal. 2011) (“[P]laintiffs cannot assert unjust enrichment claims that are merely duplicative of statutory or tort claims”); *Musgrave v. ICC/Marie Callender's Gourmet Prods. Div.*, 2015 U.S. Dist. LEXIS 14674, * 29 (N.D. Cal. Feb. 5, 2015) (dismissing unjust enrichment claim where it “duplicates Plaintiff’s other statutory and common law claims”). Plaintiffs’ claims for unjust enrichment allege the same “deceptive” conduct that forms the basis for their other claims. The unjust enrichment claims thus should be dismissed without leave to amend.

VIII. CONCLUSION

For the foregoing reasons, the SAC should be dismissed in its entirety without leave to amend.
